Professional Summary

Founder of Hollow House Institute (HHI), focused on execution-time governance infrastructure, governance telemetry, operational documentation, runtime observability, and longitudinal accountability systems.

Experienced building governance-focused repositories, standards mappings, audit artifacts, telemetry structures, and operational governance workflows using GitHub, Termux, AI systems, and structured evidence methodologies.

Core Areas

- AI Governance Operations
- Governance Documentation
- Operational Workflow Design
- Audit Evidence Structuring
- Runtime Governance Infrastructure
- Behavioral Governance
- Standards Crosswalk Documentation
- GitHub Repository Operations
- Longitudinal Accountability Tracking
- Governance Telemetry

Projects

Hollow House Institute (HHI)

Operational governance infrastructure initiative focused on execution-time governance, replay-capable telemetry, runtime accountability, and behavioral governance systems.

HHI_GOV_01

Execution-time governance runtime prototype including telemetry persistence, governance APIs, continuous assurance structures, replay-capable evidence, and behavioral drift monitoring.

Hollow_House_Standards_Library

Canonical terminology and standards authority containing governance ontology, standards mappings, glossary infrastructure, and governance architecture documentation.

Tools

- GitHub
- Termux

- Git
- Markdown
- Pandoc
- Typst
- Python
- Linux CLI
